

FISHERS ISLAND TELEPHONE DIRECTORY 2015-2016

E.M. & W. Ferguson Company

Brothers Edmund M. Ferguson & Walton Ferguson, two bankers who bought 9/10ths of Fishers Island in 1889, built their Administration Building in 1898 as headquarters for all their island businesses operating under the umbrella company "E.M. & W. Ferguson."

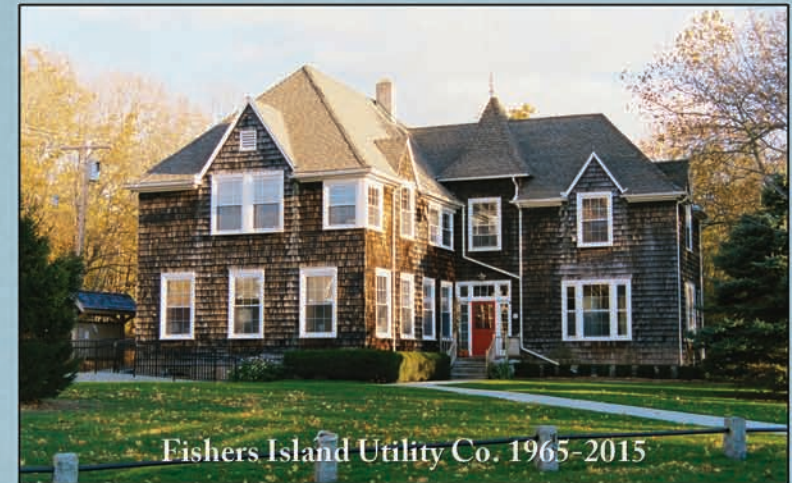

The Fishers Island Farms, Inc.

In 1918, Walton Ferguson and his children bought out the shares of Edmund's descendants, Edmund having died in 1904. Two of Walton's children, Alfred L. and Henry L. Ferguson, took leadership roles in the new concern and named their successor company "Fishers Island Farms, Inc." The Farms, as it was commonly called, held more than a dozen enterprises that ran almost all of the Island's business ranging from navigation, contracting, real estate, hotels, clubs, farming, and utilities.

The Fishers Island Utility Co.

In 1965, a group of concerned and committed private investors stepped in to form the Fishers Island Utility Co., a successor company to the Fishers Island Farms, Inc. The transition was triggered by the serious illness of Fishers Island Farms' president H. Lee Ferguson. Lee, eldest son of Henry L. Ferguson and brother of artist Charlie Ferguson, died at age 50 shortly after the Utility Company's formation. The Fishers Island Utility Company absorbed only the Farm's ownership share of the telephone, electric and water business. All other contracting and real estate concerns were soon terminated, or detached and left to the open market. 2015 marks the 50th anniversary of the Fishers Island Utility company, the latest incarnation of two precursor companies that stretch back in time to the late 19th century.
